Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-30 are in the application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 26-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Arcouette.

Arcouette discloses a watercraft including a hull having a deck coupled to the hull.

Means 6 and 7 are located between the deck and the hull floor for providing structural support to the hull. The structural means 6 and 7 are retained in place by the pressure exerted on the structural support means by the deck and hull. It is the nature of the structure that energy impacted on the hull is returned, in part.

Allowable Subject Matter

4. Claims 1-25, 29 and 30 are allowed.

Allowable Subject Matter

Response to Arguments

5. Applicant's arguments filed 9/23/2004 have been fully considered but they are not persuasive. Applicant argues that the limitation “means for providing structural support to the hull and for returning a substantial portion of the impact energy to the environment” is intended to invoke paragraph 6 of 35 U.S.C. §112. The examiner takes the position that the structural elements 6 and 7 performs the same function as the structural elements 46 and 50 disclosed in

Art Unit: 3617

the application, and as such these elements are the equivalent of the claims “means for providing structural support”.

6. Applicant disagrees with the examiner’s position that the structural elements of Arcouette will of necessity return a substantial portion of any impact energy. The structural elements of Arcouette are defined as being rigid elements interconnected with element 8 and with the hull. Since the structural elements are rigid they can not absorb energy; therefore, any energy impacted on the structural elements will be returned with only a very small amount of the same being absorbed by the structural elements.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
